

in sink erator®

Hot  
Water  
Now.

Tea Now.

Lobster Now.

Loose Lids Now.

Seriously, Now?

● **You'd be surprised** how useful a little hot water can be. Whether you're cooking, cleaning, or just having a cup of tea, the InSinkErator® instant hot water dispenser makes it happen. Now.

● **Near-boiling water? Right where you need it? Right when you need it? Cool.**

The InSinkErator instant hot water dispenser sits right on the edge of your kitchen sink, the perfect complement to your faucet. Ready to dispense hot (200°F) water at your command. So simple. So useful. Once you use it, you'll love it. Instantly.

- What can you do with this instant hot water dispenser?  
What **can't** you do?

## Eat

Cook pasta al dente, blanch vegetables, melt chocolate, thaw frozen foods, serve hot cereals and instant potatoes, make lump-free gravy, rehydrate dried foods, easily peel fruits and vegetables, warm an ice cream scoop, and prepare pie crusts and breads.

## Drink

Serve the perfect cup of tea, prepare gourmet coffee, thaw frozen juice, and make hot chocolate.

# Clean

Loosen baked-on food, remove stubborn lids and labels, clean wax from candle holders, rinse residue from vases, clean out recycling containers, and bring sparkle back to silverware.

# Nurture

Prepare baby bottles and foods, make a hot compress, use steam to help sinus congestion, clean without harsh chemicals, and pamper tired feet.

● But it doesn't stop there.

\*Series 1100 Dispenser - 5 years

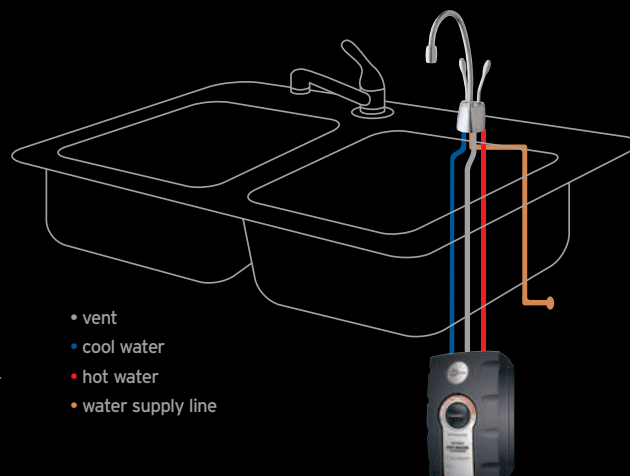

†Tank & Filtration System - 3 years, with an extended service plan available (when installed by an InSinkErator Pro Circle™ plumber)

## Hot water, instantly? How does that work?

It's actually pretty simple. A 2/3 gallon tank heats the water to 200°F. As the water is used, tap water replaces it in the tank. With the fast recovery system, it can crank out 60 cups of near-boiling water an hour.

## Easy to use. Easy to install.

All of our instant hot water dispensers fit a standard 1.5 inch hole on the sink or the countertop. The tank is conveniently compact and mounts under the sink. Then it's plumbed into the cold water line and plugged into a standard 115 volt outlet. **Voilà. Done.**

Instant Hot Water Dispensers. The Next Necessity.
